JSM Mounting brackets

PCN Details

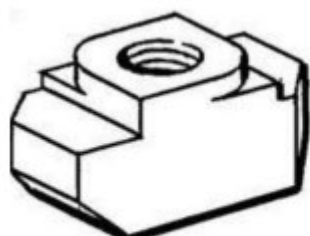

PCN Document No.	2TLC010048J0201	Date of PCN:	2024-11-08
PCN issued by:	Elias Agrell	PCN valid as of:	2024-11-11
Product Owner:	Manuel Goethe-Rodriguez	Obsolescence Date:	Permanent change
P&L Manager:	Max Lönn	Change Date:	2024-10-29
Products impacted:	JSM 55, JSM D28, JSM D23C, JSM D24, JSM D21C, JSM D20		
Impact on Form/Fit/Function:	☐ Form ☒ Fit ☐ Fctn		Impact on reliability: ☐ Y ☒ N

Dear Valued Customer,

The purpose of this communication is to inform you of an upcoming change to the following products. This change is part of our commitment to streamlining our product offerings and ensuring an adequate information.

Description of Change

Removal of special nut, centering plate and screw in the impacted products in this PCN. Previously, the package for some of our products included these components to facilitate the mounting on the Quick-Guard safety fencing system. Going forward, these components will no longer be included in the impacted products.

T-nut

Centering plate

Reason for Change

This change is due to ABB's divestment of the Quick-Guard safety fencing product line to Troax AB of Sweden. As a result, the T-nuts and centering plates, integral to the Quick-Guard fencing system, can no longer be provided with the impacted products.

Customer Impact of Change and Recommended Action

The impacted products can no longer be mounted on the Quick-Guard fencing product since the T-nut is no longer supplied with the products. Please contact Troax for Quick-Guard orders and customer support for any future needs related to these components.
