EN Work on electrical installations is in some countries only allowed by authorised persons. Before starting work, contact a local electrician or authorised person for advice.
DE Die Arbeit an Elektroinstallationen ist in einigen Ländern nur qualifizierten Elektrofachpersonal, Werkstättenbetreibern oder Sachverständigen anvertraut. Bevor Sie mit der Arbeit beginnen, wenden Sie sich an einen Elektrofachmann oder einen Sachverständigen für Rat und Hilfe.
FR Dans certains pays, les travaux sur les installations électriques ne peuvent être effectués que par des personnes qualifiées ou des personnes autorisées. Avant de commencer les travaux, consultez un électricien ou votre autorité locale.
ES En algunos países, únicamente las personas cualificadas o autorizadas pueden trabajar en instalaciones eléctricas. Antes de comenzar los trabajos, consulte a un electricista o a la autoridad local.
PT Em alguns países, apenas as pessoas qualificadas ou autorizadas podem trabalhar em instalações elétricas. Antes de começar os trabalhos, consulte um electricista ou uma autoridade local.
IT In alcuni paesi, solo le persone qualificate possono lavorare sulle installazioni elettriche. Per informazioni, consultate il tuo elettricista o l'ufficio locale per la forza pubblica.

EN The electrical circuit and attached light sources will always be powered after installation. Turn off the circuit when working as light source.
DE Der Stromkreis und die angeschlossenen Lichtquellen werden nach der Installation immer noch mit Strom versorgt. Schalten Sie den Stromkreis aus, wenn Sie am Licht arbeiten.
FR Le circuit électrique et la source lumineuse raccordés seront toujours alimentés après l'installation. Éteignez le circuit avant de travailler sur la source lumineuse.
ES Tras la instalación, el circuito eléctrico y la fuente de luz conectada siempre seguirá recibiendo corriente. Apague el circuito cuando trabaje en la fuente de luz.
PT O circuito eléctrico a partir da luz conectada estará sempre ligado a alimentação após a instalação. Quando substituir um equipamento de luz, desligue o circuito.
IT Dopo l'installazione, il circuito elettrico e la sorgente luminosa saranno sempre alimentati dopo l'installazione. Per informazioni, consultate il vostro elettricista per l'illuminazione.
