

EKP Euro adhesive pad 31360

CE 6/2022

Areas of application:

For the pipe to steel structures, trapezoidal sheeting and plasterboard.

Installation Guide:

EC in combination with EKP:

- Click the EC to the EKP
- Apply suitable glue on the bottom of the EKP and mount the combination on a clean surface
- Wait until the glue has dried
- The EC clamp is adjustable after mounting
- Push the pipe into the clamp
- Cables can be attached to the EKP with a cable tie

Product details:

Colour	light grey
Content pack/box	100 / 3.000
Length x width mm	38 x 35

Mounting and usage instructions:

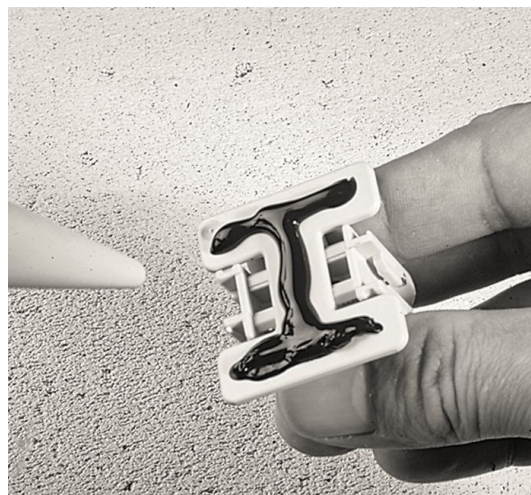

The EC Euro clip is snapped onto the EKP, the mounting adhesive is applied to the underside of the EKP and pressed on to the appropriate base.

Product benefits/properties:

The ERP has the same application geometry as the EC. Easy attachment of the ERP with a mounting adhesive. The ERP is also suitable for mounting and fixing of cables with cable ties (cable ties up to implementation: 4.5 mm width).

Technical data:

Material	ABS, UV stabilised Temperature range: -20 °C up to +85 °C silicon-free halogen-free
Weight per piece	1,70 g
Breaking load	Tightening torque: 20 kg (Tightening torques are averages and can vary due to different influences e.g. surface or adhesive.)
GTIN (EAN)	9 008439 413607

The EC Euro clip can be mounted on plasterboard with the aid of the EKP Euro adhesive pad.
